

Service & Maintenance Agreements

To ensure maximum protection and peace of mind, it's vital that we keep your fire and security systems working 24/7, 365 days a year. It may also be a requirement by your insurance company to have your systems maintained by an approved company. We offer a range of service and maintenance packages to suit your needs. These packages are offered over a choice of one, two or three years.

Our dedicated team of accredited engineers are available 24 hours a day. We are always on call to provide a fast, out of hours service, ensuring your home or business is always fully protected.

Annual Service	None	Standard	Premium Plus	
			Premium	Plus

✓ = Included free in the agreement.

You will need a separate service and maintenance agreement for each individual system and individual system type. If you have a wireless system we recommend that the device batteries are replaced in accordance with the manufacturer's guidelines which is usually every two years or every year for safety devices such as smoke detectors.

* Free call-outs or remote support only applies to rectify faults that are not caused by you the customer, your agents or acts of God.

** Minimum contract period of 12 months from the date we commission or take over the system. The notice period to cancel this contract is 3 months prior to anniversary date of the contract.
